INNOVATION IN ALL AREAS OF DISCOVERY AND DEVELOPMENT WITH PROGRAMS FOCUSED ON UNIQUE MILITARY NEEDS.

Shown in clip on configuration

The X-27 features 2x thermal zoom combined with 4x optical zoom for medium to long range target acquisition. When used as a clip on the X-27 mounts to the rail in front of your day scope of choice negating the need to zero the weapon between day and night use. As a dedicated weapon sight the X-27 has internal electronic reticules with windage and elevation adjustments.

## Specifications...

- **Sensor**  
320x240 uncooled next generation microbolometer
- **Objective**  
Zoom Magnification - 1x,2x  
Field Of View - 12°
- **Eyepiece**  
1"-12" Eye Relief sealed optics
- **Size**  
6.9" L x 2.7" W x 3.3" H
- **Weight**  
1.5lbs, batteries installed
- **Operating Temperature**  
-32F to +140F
- **Recognition Range**  
700M for moving, tactically deployed, man size target
- **Recognition Range**  
Less than 5 seconds
- **Electrical**  
CR123 batteries  
**Operating Time** ~ 8 hours continuous operation
