CLASS LONG RANGE MULTI SENSOR REMOTE SYSTEMS

**GOLD
STANDARD**

F/1.2 CONTINUOUS ZOOM

ULTRA LONG RANGE HARDENED/COATED OPTICS

Extreme long range night vision target detection in pitch darkness and harsh environments can present a challenge. The M-CLASS PTZ EO/IR Thermal infrared imaging camera platforms can achieve advanced detection, recognition and identification of distant targets at very long ranges with extreme accuracy and precision. Our affordable steerable PTZ Thermal imaging systems utilize the latest in highly sensitive, high resolution sensors and can be configured with ULTRA LONG RANGE PRECISION HARDENED GERMANIUM TELEPHOTO ZOOM OPTICS that offer target detection **at up to 35 KILOMETER + RANGE.**

**THE HIGHLY CONFIGURABLE M-CLASS EO/IR SYSTEMS
ARE SUITABLE FOR A WIDE RANGE OF APPLICATIONS.**

The M-CLASS Multi Sensor PTZ platforms are the ideal solution for your vehicle borne imaging application. Designed from the ground up for rough duty in the harshest of conditions the M-CLASS will stand up to the punishment of on or off road vehicle use. Our systems have been deployed in every vehicle situation from combat missions in the Middle East to security patrols at critical facilities to law enforcement and border patrol missions. The M-CLASS stabilized platform enables extreme long range imaging from vehicle positions that are impossible for other systems. With 360° continuous rotation and ultra long range optics the M-CLASS is the stabilized platform to track targets in any conditions.

THE HIGHLY CONFIGURABLE M-CLASS EO/IR SYSTEMS ARE THE SINGLE SOLUTION FOR ALL YOUR VEHICLE BASED IMAGING APPLICATIONS

M7

CLASS LONG RANGE MULTI SENSOR REMOTE SYSTEMS

SAMPLE FEATURES

HIGH RESOLUTION THERMAL FLIR INFRARED IMAGING CAMERA

The M7 Ultra Long Range Thermal PTZ FLIR system comes with hand selected, top of the line military grade MWIR or LWIR cooled or uncooled detector arrays that go through rigorous testing and ensure extreme high resolution and High sensitivity.

UNBEATABLE ULTRA EXTREME LONG RANGE TELEPHOTO ZOOM OPTICS

The M7 Has both LWIR F/1.2 Continuous Zoom and MWIR F/4 Lenses catered to your range requirements, Our lenses are top grade hardened, coated and sealed with high precision continuous zoom mechanisms. Our optics keep in focus throughout the entire zoom cycle from wide to telephoto fields of view. Our Daytime optics come in SD or HD and 4K, with optical CCTV lens solutions up to from 25mm to 2500mm, Our lenses really reach out to insane long ranges!

360° CONTINUOUS ROTATION

Advanced "slip-ring" design lets the M7 PTZ FLIR IR CAMERA and its Multiple sensor payloads rotate continuously in either direction to stay locked onto the target. Slue to cue Radar and target tracking is available.

ADVANCED EOIR SENSORS

The M7 PTZ FLIR incorporates next generation Sensor Technologies, we use the latest Military grade sensors and can integrate exotic sensors to compliment the thermal and TV day optics. Optional Cameras include SWIR, BstFA, HFIS. We can also custom integrate your specific sensors/cameras into the M7 System. Included is Continuous electronic digital zoom and a wide array of image enhancing and correcting algorithms that assure you the best image performance. **NOW AVAILABLE WITH THE OSPREY COLOR NIGHT VISION CAMERA.**

USER PROGRAMMED AUTO-TOUR

The M7 thermal imaging IR security camera is based on an intelligent PTZ platform that can be user programmed to follow pre set tours.

INTEGRATED WIPER

The M7 is an all weather solution. An integrated wiper keeps dirt and debris from clouding your image.

EASY INSTALLATION

The M7 is the easiest thermal pan tilt zoom system to install. Integrates simply with all security systems. **FULLY UNIVERSAL AND COMPATIBLE WITH ANY NETWORK INTEGRATION SCENARIOS WITH WIRED, GPS, LOCAL, REMOTE, IP, STREAMING, ONVIF, POE POWER OVER ETHERNET, ANALOG, ETHERNET, SOLAR, FIBER, MICROWAVE INSTALLATIONS.**

CUSTOMIZABLE / BEST VALUE TO PERFORMANCE

The M7 PTZ FLIR configurations include long range thermal, HD Thermal Imaging LWIR and MWIR detector arrays, network interface, mast mounted, slew to cue, drop deployable, Radar, Panoramic imaging, marine, emergency response vehicle, tactical vehicle, surveillance truck, border, sea, coastline and more with EO/IR add-ons such as NIR, SWIR, MWIR, LRF LASER RANGE FINDERS, SCMOS, LOW LIGHT CMOS, BSTFA, HFIS, LASER IR INFRARED ILLUMINATORS, POINTERS, DESIGNATORS, DAZZLER & SPOTLIGHT, tracking, GPS picture in picture, fusion & image blending.

SAMPLE OPTICS

SAMPLE MWIR COOLED THERMAL LENS OPTIONS

- 15-225 mm MWIR continuous zoom hardened, coated/sealed germanium lens.
- 15-305 mm MWIR continuous zoom hardened, coated/sealed germanium lens.
- 18-335 mm MWIR continuous zoom hardened, coated/sealed germanium lens.
- 35-670 mm MWIR continuous zoom hardened, coated/sealed germanium lens.
- 35-720 mm MWIR continuous zoom hardened, coated/sealed germanium lens.
- 35-835 mm MWIR continuous zoom hardened, coated/sealed germanium lens.
- 47-595 mm MWIR continuous zoom hardened, coated/sealed germanium lens.
- 88-1220 mm MWIR continuous zoom hardened, coated/sealed germanium lens.
- 88-1420 mm MWIR continuous zoom hardened, coated/sealed germanium lens.
- 55-1650 mm MWIR continuous zoom hardened, coated/sealed germanium lens.

We Have Thermal Imaging Lenses As Fast As f/1.0 and Focal Lengths From 2mm To 2000mm

***THE M-CLASS IS CAPABLE OF DETECTION RANGES UP TO 45KM
